

VertKleen Descaler

100% Synthetic Acid, Non-Regulated, Non-Corrosive Concentrate

VertKleen Descaler is the most aggressive line cleaner and descaler available. Tests confirm that our patented SynTech®, the world's only synthetic acid, dissolves calcium as effectively as Muriatic (hydrochloric) acid. Its triple-zero HMIS makes VertKleen Descaler safe for your equipment and people and safe to store where you wish. As VertKleen Descaler neutralizes instantly with fresh water, we remove the time and material costs associated with additional steps needed with acid based products. VertKleen Descaler removes no trace metals from the system, making it legal to dispose effluent water directly into the sanitary system. VertKleen Descaler is non-regulated by the D.O.T., and is non-mutagenic to marine life.

USE DIRECTIONS

Introduce into pipes or environment where descaling and cleaning is needed. For CIP cleaning dilute as needed and allow to circulate in system, then rinse with water. No neutralizing step is required.

DILUTION RATIO

Light Buildup, Regular Cleaning - 20:1
Moderate Cleaning- 3:1
Severe Buildup and Scale Removal - 1:1

HAZARD STATEMENT

May be harmful if swallowed.
Causes mild skin irritation.
Causes eye irritation.

SIGNAL WORD

Warning
