

VertKleen HCR

100% Synthetic, Non-Corrosive HCl Replacement

VertKleen HCR is a safe yet functional replacement for traditional hydrochloric acid treatments and other commonly used oil field acid treatments. VertKleen HCR is non-regulated by the U.S. DOT and carries a triple zero HMIS. VertKleen HCR biodegrades in less than 10 days and is manufactured with EPA Design for Environment and Cleangredients approved ingredients as prescribed by the U.S. EPA DfE Program for the manufacturing of environmentally safer chemicals.

USE DIRECTIONS

Recommended dilution rates: 30-100% with water based on the severity of the buildup and the reaction rate required for the project.

Note: VertKleen HCR does not contain any additional iron control agents, demulsifiers, or corrosion inhibitors. No organic acid additions are required.

A typical ratio for an acid frac is one part VertKleen HCR and one part water. Ratios may vary based on specific applications and recommendations from your dealer.

When pumping VertKleen HCR it is recommended to use hose couplings and fittings approved by your product supplier. 316 stainless steel, polypropylene or schedule 80 PVC is recommended. **DO NOT USE ALUMINUM FITTINGS.**

HAZARD STATEMENT

May be harmful if swallowed.
Causes mild skin irritation.
Causes eye irritation.

SIGNAL WORD

Warning

PRECAUTIONARY STATEMENTS

Keep container tightly closed. Do not eat or drink while using this product. Wash hands thoroughly after handling. Avoid strong oxidizers. Dispose of in accordance with local, regional, federal or international regulations as specified.
